

Aeolus Power Ltd

Installer Profile:

Proven Energy of Stewarton in Scotland have been manufacturing and installing wind turbines since 1991. Due to their rapid expansion they have been unable to keep up with the demand for installations in the South and South West and have appointed Aeolus Power Ltd as their distributor/installer.

Proven have already installed a number of turbines in the South West, including 4 turbines at Penryn in Cornwall.

Aeolus, although fairly new to the wind industry have carried out installations and servicing throughout the U.K. but are concentrating on the South West of England. They are Clear Skies Registered and are members of the British Wind Energy Association.

Aeolus Power are keen to offer a complete service from help and assistance with Planning, to offering advice on siting and contacts with your Electricity Distributor - to make the installation of your wind turbine as easy and stress free as possible.

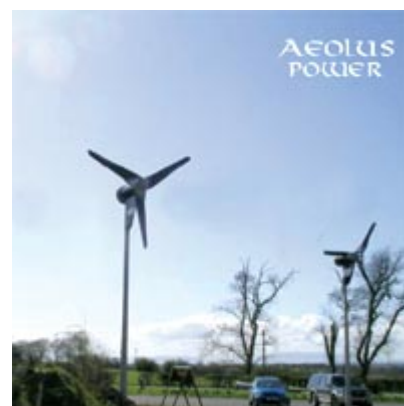

Services / products on offer:

Installers of Proven Energy 2.5kw, 6kw and 15kw wind turbines and AOC 50kw wind turbines.

Clear Skies Registration No: 2142379
