

BecoSolar

Installer Profile:

BecoSolar are a leading national installer of PV Solar Energy systems. With over 60 Systems installed and many more in the design stage.

BecoSolar offer an effective solution to Renewable energy needs for domestic and social housing, schools and community buildings.

The company based in Dartmouth, Devon was founded in 1979 and has an experienced team of technicians, capable of working on small domestic, as well as large Public or Commercial systems.

Beco install both above roof retrofit and integrated systems for new build projects. At our workshop and warehouse facility we always carry a comprehensive stock of BP and Sharp solar panels, SMA inverters and associated mounting systems.
