

Celtic Solar

Installer Profile:

Celtic Solar is a Cornish based company committed to encouraging the use of solar energy through the supply and installation of solar water heating systems to homes and businesses in the Southwest Region. We provide a full and comprehensive service from the initial survey and design of a system through to completion and commissioning. We have teamed up with some of the European leaders in solar technology to offer top quality products at affordable prices with long warranty periods

The systems are independently tested and certified as fully complying with BSEN 12975 Parts 1 & 2. Our company is Clear Skies Accredited, ERS UDHW certified and members of the Solar Trade Association. Our own fully trained fitters are experienced tradesmen who take pride in doing the job well.

Solar heating for swimming pools is gaining in popularity as fuel costs rise and we have particular expertise in this area having installed many successful systems for both indoor and outdoor pools.

Our long list of clients include Cornwall County Council, Caradon District Council, Paignton Zoo, The Queens Hotel, Penzance, Fingles Hotel Dartmouth, Spurtham Leisure Ltd., South West Lakes Trust, Cornwall Wildlife Trust, The National Trust and schools in Plymouth, Lewannick, Lanreath, St. Mawes and Seaton. Plus many hundreds of private homes across Cornwall, Devon and Somerset.
