

# ECO HEATING SYSTEMS

## Installer Profile

Eco-Heat Systems is a sub-division of Mount Hawke based Govan Gas, which deals with the installation and maintenance of high efficiency gas, LPG, and oil heating systems. Eco-Heat Systems concentrates solely on renewable technologies, specifically air source heat pumps and micro-chp boilers. Clients include North Cornwall District Council, Mears plc, and those engaged through the national Warmfront scheme.

## Services/products on offer

Installation and maintenance of Air-to-Water and Air-to-Air heat pump systems. Installation of micro-chp boilers from 2009.

## Accreditation reference no.

Presently in the process of applying for Microgeneration Certification Scheme accreditation.
