Installer Profile: The Mark Group is a nationwide company dedicated to providing a 'whole house' solution to energy efficiency.

We began insulating homes back in 1974 and recognised that this is the first step in helping save energy, money and carbon emissions. Today, we help make over 3,000 homes more energy efficient every week, from our 14 regional locations.

Our portfolio has expanded in recent years to include an increasingly popular and proven range of energy saving products.

Our services are tailored for individual homeowners as well as builders, architects, local authorities and government bodies.

Services / products on offer: Suppliers and installers of Cavity Wall Insulation, Loft Insulation, Solar Hot Water, Solar Electricity, Air Source Heat Pumps.

We are currently reviewing our Wind Turbines product offerings, our newest product should be available to market in late 2008

LCBP accreditation reference no. 2142667
